

**THIS IS THE ENVIRONMENTAL POLICY STATEMENT OF**  
**GILWOOD (FABRICATORS) CO LIMITED**

Gilwood (Fabricators) Co Limited recognises its responsibility to protect the environment and prevent pollution and will strive through continuous improvement to conduct all of its operational; activities in such a way as to minimise potential damage to the environment.

This will be achieved by:

- Conducting all activities in compliance with legal, regulatory, and company requirements.
- Working with our customers and suppliers to minimise the potential to cause pollution and continually improve our environmental performance by promoting environmentally sustainable options and minimising waste.
- Continually improve the efficiency of the processes and equipment we operate to reduce waste and emissions.

This will be achieved by:

- Considering environmental risks associated with our activities.
- Ensuring processes are in place to ensure legal compliance is maintained.
- Developing, implementing and controlling operational control of processes.
- Collecting, analysing and evaluating environmental performance data.
- Identifying potential emergency situations and the necessary measures to control them.
- Developing environmental awareness in our staff so they understand their responsibilities involving waste control and the efficient use of resources.
- Ensuring environmental performance is considered when selecting suppliers and subcontractors.
- Setting environmental objectives, putting in place plans to achieve these objectives, and the methods of monitoring progress towards these objectives.
- Working towards certification to ISO 14001:2015

This policy is communicated to employees and distributed to interested parties on request.
